

Announcement from the Rally Director:

Dear sports fans.

The Rally Králíky is challenging not only for the crews but also for the organizing team. This morning, the Olomouc Regional Authority's Department of the Environment issued a stop order for SS 4 and SS8 to protect nesting birds. This is despite the fact that we proposed measures to mitigate the impact on the affected birds and strongly requested that any disapproval be issued well in advance.

In the context of other legal filings that missed the mark (cancellation of the permit), various thoughts come to mind.

We didn't give up, and in just a few hours we managed to resolve the whole matter by changing the route, so that we will run the Sobkovice and Pastviny special stages 3 times and Hedeč twice as usual.

Here, we must thank the affected municipalities for their tremendous cooperation, thanks to which the 4th Králíky Rally will have a decent number of kilometers. On behalf of the organizing team, we apologize to the crews for having to forgo the beautiful Raškov-Červená Voda special stage.

Thank you for your understanding and support!

Libor Kubista – Race Director and the entire Podorlický Autoclub
